

Martin Poboril

Albuquerque, New Mexico | 505.289.6359 | martin@tennis-technology.com

Summary

Front-End Developer with 2+ years of experience building responsive, scalable, and high-performance user interfaces using React and TypeScript. Strong background in developing data-driven applications, integrating RESTful APIs, and optimizing UI performance across platforms. Proven ability to translate complex requirements into intuitive user experiences while collaborating with backend engineers and stakeholders. Passionate about building reliable, maintainable, and user-centered applications.

Skills

React • TypeScript • JavaScript • HTML • CSS • Tailwind • Next.js • REST APIs • Async Data Handling • UI Component Design • Performance Optimization • Responsive Design • Cross-Platform Development • Node.js • Express • PostgreSQL • Git/GitHub • Agile Methodologies

Experience

Front-End Developer / Data Systems Developer

Sport-me, s.r.o. | 2018 – 2025

Developed and maintained interactive web applications using modern JavaScript frameworks. Designed user interfaces and data visualization components for performance analytics platforms. Integrated frontend systems with APIs and real-time data sources. Ensured UI performance, scalability, and reliability across platforms.

- Built responsive React-based interfaces for displaying real-time analytics and performance data
- Integrated frontend applications with RESTful APIs and asynchronous data flows
- Optimized UI performance by improving rendering efficiency and data handling strategies

Front-End Developer

Self-Employed / WordPress Projects | 2018 – Present

Designed and developed custom, responsive websites and web applications. Translated client requirements into intuitive UI workflows and components. Implemented secure and scalable frontend systems integrated with backend services.

- Developed user-friendly interfaces using HTML, CSS, JavaScript, and modern frameworks
- Implemented features such as secure payments, automated notifications, and dynamic content rendering
- Improved usability and accessibility through responsive design and UI optimization techniques

Director – Live Data & Streaming Operations

Vistasport | 2016 – 2018

Managed development of web-based platforms for live data visualization and streaming. Oversaw integration of frontend interfaces with data pipelines and real-time systems. Ensured performance and reliability of applications under high-demand conditions.

- Led development of platforms displaying live analytics and media content
- Collaborated with technical teams to ensure seamless frontend-backend integration
- Improved system reliability through performance monitoring and optimization

R&D Manager – Software & Sensor Systems

Proavis Technologies | 2014 – 2015

Developed software applications for data collection, processing, and visualization. Collaborated on design of cross-platform tools for performance tracking and analytics.

- Built applications for real-time data interaction and visualization
- Contributed to development of innovative, data-driven user interfaces
- Enhanced system functionality through iterative testing and performance improvements

Education

Full Stack Web Development Bootcamp (In Progress)

Deep Dive – CNM Ingenuity | **Expected 2026**

Data Analytics Program

Masterschool | **2023**

Bachelor of Science in Information Systems

Oklahoma Christian University, Oklahoma City, OK | **2013**

Higher Secondary Diploma in Applied Geology and Geodesy

Pribram, Czech Republic | **2007**

Technical Tools

SQL • PostgreSQL • Tableau (or similar) • JavaScript • TypeScript • React • Node.js • Express • Next.js • Git • Data Visualization

Addition Experience

Assistant Coach

University of New Mexico | 2020 – 2021

Utilized data analysis and performance metrics to evaluate athlete performance and support training strategies. Collaborated with coaching staff to interpret data and apply insights to player development. Maintained performance records and communicated progress to stakeholders.

- Applied data-driven insights to improve athlete performance and competitive outcomes
- Supported development of training strategies using performance trends and statistical analysis
- Collaborated with coaching staff to translate data into actionable recommendations
